BARNSTABLE COUNTY ASSEMBLY OF DELEGATES

In the Year Two Thousand and Five

Ordinance 05-02

To amend the Code of Cape Cod Commission Regulations of General Application Chapter A
Enabling Regulations to read as follows.

BARNSTABLE COUNTY hereby ordains:

SECTION 1: General Provisions

(a) Source of Authority
The regulations and standards and criteria concerning review of Developments of Regional Impact
(DRI) are adopted and amended pursuant to Sections 6 and 12(a) of the Cape Cod Commission

(b) Effective Date
The regulations and standards and criteria set forth herein (Enabling Regulations) shall become
effective upon passage as an ordinance and upon recording with the Clerk, the Barnstable County
registry of deeds and the county clerk. The Enabling Regulations set forth herein shall remain in
effect until the Assembly of Delegates adopts superseding regulations by ordinance.

(c) Definitions
The definitions contained in Section 2 of the Act shall apply to these regulations. As used within
these regulations and the Administrative Regulations, the following additional terms shall be
defined as stated below. Defined terms used within these regulations appear capitalized to direct the
user to the applicable definition.

Act: An Act establishing the Cape Cod Commission, Chapter 716 of the Acts of 1989, as
amended.

Certificate of Compliance: Certificate issued by the Commission, and signed by the
Executive Director or his/her designee, confirming that a project has been constructed in
accordance with the Commission decision.

Change of Use: A change in the nature or purpose of the use of a developed parcel of land
that could have a different or more detrimental impact on the resources protected under the
Act and Regional Policy Plan (RPP), including but not limited to an increase in the intensity
of use of any structure or land. In cases where the use of a developed parcel has been
discontinued or vacated for five or more consecutive years, any use of such parcel shall be
considered a Change of Use.

Chief Regulatory Officer: Chief Regulatory Officer of the Cape Cod Commission.

Clerk: Clerk of the Cape Cod Commission.

Concealed Antenna Monopole: Any monopole with antennas, cables and hardware
concealed beneath a surface that is continuous with the surface of the supporting monopole
(also known as a flagpole style monopole).

County Clerk: The Clerk of Barnstable County.

Demolition: Any act of pulling down, destroying, removing, dismantling or razing a
structure or commencing the work of total or substantial destruction with the intent of
completing the same.
Development of Regional Impact (DRI): A process pursuant to Sections 12 and 13 of the Act

Development of Regional Impact (DRI) Exemption: An exemption pursuant to Section 12(k) of the Act from Commission review of a proposed development that literally qualifies as a Development of Regional Impact.

Development of Regional Impact (DRI) Hardship Exemption: An exemption pursuant to Section 23 of the Act from Commission review of a proposed development that qualifies as a Development of Regional Impact.

Discretionary Referral: A referral in accordance with Section 12(e) of the Act by a Municipal Agency or the County Commissioners of a proposed development that does not meet or exceed any of the standards and criteria (thresholds) set forth in Section 3 of these regulations.

DRI Liaison: Town representative designated to act as a liaison to the Commission and coordinate with the Commission staff on regulatory issues.

Emergency Work Determination: A determination made by a Municipality or state agency, pursuant to Section 24 of the Act, that an emergency exists and that a development is necessary for the immediate protection of the health or safety of the public, notwithstanding that ordinarily such emergency work would require referral to the Commission as a Development of Regional Impact as set forth in Section 2 below.

Executive Committee: A standing committee established by the Cape Cod Commission on April 25, 1990.

Executive Director: The Executive Director of the Cape Cod Commission.

Gross Floor Area: The sum of the area of all floors within the perimeter of a building, located either above or below ground level, except underground parking within the structure and accessory to the principal use shall not be included in the total gross floor area. Gross Floor Area shall be expressed in square feet and measured from the exterior face of the exterior walls, or the centerline of shared walls. It shall include all floor levels including basements, mezzanines and attics without deduction of hallways, stairways, elevator shafts, mechanical rooms, closets, thickness of walls, columns or other similar features. Outdoor areas used for storage, sales, service and display shall also be included in the total Gross Floor Area.

Hearing Officer(s): A person(s) designated to take testimony, open, close and continue hearings and to accept letters of withdrawal.

Jurisdictional Determination: A determination pursuant to Section 12(j) of the Act whether a development is or is not a Development of Regional Impact under Section 3 of the DRI Enabling Regulations, and as to whether the development is exempt from Commission review pursuant to Section 22 of the Act.

Limited DRI Determination: A determination of the scope of DRI review of a Change of Use project in accordance with Section 4.

MEPA: Massachusetts Environmental Policy Act, M.G.L. Chapter 30, Sections 61-62H.
Occupied Area: An area that encloses a wireless facility and all equipment, including wireless communications and accessory equipment cabinets, telecommunications terminals and service enclosures, electrical transformers and service enclosures, wireless equipment buildings, foundations and mounting pads, generators, above-ground conduits, cables, and cable supports, and fenced enclosures. Below-ground cables, conduits, and enclosures may extend outside the Occupied Area so long as their penetrations above the surface are within the facility’s Occupied Area. Underground utilities (telecommunications and electrical) may penetrate the surface outside the Occupied Area at a pad mounted transformer or terminal cabinet not to exceed four feet above ground, and at the utility pole from which the utility connection originates. Landscaping installed to screen the Occupied Area is not included in the Occupied Area calculation.

Outdoor Use: A use with facilities or activities that are predominantly accommodated outside, rather than within a structure. For instance, gravel mining, commercial parking lots, golf courses and outdoor active recreation uses would generally be classified as Outdoor Uses. For all Outdoor Uses, the size of the facility shall be based on the Total Project Area Planning Committee: A standing committee established by the Cape Cod Commission on April 25, 1990.

Project of Community Benefit (POCB): A project determined by the Commission to confer upon or result in distinct benefits to the community and the citizens of Barnstable County, consistent with Sections 1(a) and 1(c) of the Act.

Regional Policy Plan (RPP): Planning and regulatory document, originally adopted by Barnstable County Ordinance 91-6, and amended from time to time, that includes the Cape Cod Commission’s goals, policies and standards.

Regulatory Committee: A standing committee established by the Cape Cod Commission on April 25, 1990.

Residential Dwelling Unit: Facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking, and sanitation, whether in a complete, individual unit or a unit sharing common facilities. A Residential Dwelling Unit shall include but not be limited to bedrooms in nursing homes and congregate-care facilities.

Secretary: The Secretary of the Massachusetts Executive Office of Environmental Affairs.

Substantial Alteration: An alteration that jeopardizes an historic structure’s individual eligibility for listing in the National Register of Historic Places, or its status as a contributing structure in a National Register Historic District.

Substantive Public Hearing: A hearing of a Commission subcommittee or Hearing Officer held for the purposes of taking public testimony. Hearings conducted by Hearing Officer for procedural purposes only (for example, if an incomplete application has been filed), are not Substantive Public Hearings. Public hearings held jointly with the Executive Office of Environmental Affairs (MEPA Unit) for the purposes of receiving comments on an Environmental Notification Form (ENF) shall not be considered a Substantive Public Hearing under this definition. Public hearings held jointly with the Executive Office of Environmental Affairs (MEPA Unit) for the purposes of receiving comments on an Environmental Impact Report (EIR) shall be considered a Substantive Public Hearing under this definition.
Total Project Area: The calculation of Total Project Area shall include but not be limited to outdoor storage/sales/service/display, parking areas, landscaped areas and/or any site alteration or site disturbance associated with the proposed development including the footprint of all buildings and structures.

Underground Parking: A structure or portion of a structure designated for parking vehicles that is entirely below natural grade, except for required ingress and egress.

Wireless Communication Tower: Any guyed, monopole, or self-support tower, constructed for the purpose of supporting antenna(s) for transmitting and/or receiving radio frequency communications, including but not limited to television and/or radio broadcasting, personal wireless services as defined by the Telecommunications Act of 1996, private land mobile radio, point-to-point radio links, public safety radio services, or similar forms of electronic communication. This definition does not include amateur radio operator antennas or television antennas which are accessory to a residential use.

SECTION 2: Commission Jurisdiction

(a) Mandatory Jurisdiction

(i) When a Municipal Agency receives an application for a development permit, the Municipal Agency shall refer the proposed development to the Commission for review as a Development of Regional Impact (DRI) if the proposed development meets or exceeds any of the standards and criteria for DRIs set forth in Section 3 below.

(ii) The Municipal Agency shall not refer the proposed development for review as a DRI if the project is eligible for any of the exemptions listed in Section 22 of the Act. Informal jurisdictional interpretations are available from the Commission staff to assist a Municipal Agency. Formal Jurisdictional Determinations are available pursuant to Section 12(j) of the Act and Section 9 below.

(iii) In applying the DRI standards and criteria (“thresholds”), the entire proposed project including future expansions shall be considered and not separate phases or segments thereof. Ownership by different entities does not necessarily indicate that projects are separate.

(iv) In accordance with Section 12(h) of the Act, the Commission may review proposed developments that have not been referred to the Commission by Municipal Agencies as a DRI if, at a public meeting, the Commission determines that the proposed development meets the standards and criteria for DRIs set forth in Section 3 below and is not otherwise exempt by the provisions of Section 22 of the Act.

(b) Discretionary Referral

(i) A Municipal Agency, including the Board of Selectmen/Town Council, in the Municipality where the development is located, or the County Commissioners or the Board of Selectmen/Town Council in any other Municipality, may refer a proposed development that does not meet or exceed any of the standards and criteria set forth in Section 3 below and is not otherwise exempt by the provisions of Section 22 of the Act to the Commission for review. The Commission may accept the referral as a development that may have regional impacts and that presents one or more of the concerns listed in Section 12(b) of the Act. The referring agencies listed above may make a full Discretionary Referral or may
make a limited Discretionary Referral setting forth one or more issue areas of the RPP, such as Land Use/Growth Management, Natural Resources, Water Resources, Hazardous Materials, Economic Development, Transportation, Affordable Housing, Open Space and Recreation, and/or Heritage Preservation/Community Character, to be applied by the Commission in a limited DRI review as further authorized under Section 6(vii)(2) below. Whenever a referring agency makes a Discretionary Referral it must forward notice to the Board of Selectmen/Town Council in the Municipality where the development is located. The Board of Selectmen/Town Council may forward comments to the Commission on any full or limited Discretionary Referral.

(ii) One single-family dwelling shall not be considered to have significant impacts on the values and purposes protected by the Act outside the Municipality in which it is located and may not be referred to the Commission pursuant to Section 2(b)(i) above unless that dwelling has been determined by the Massachusetts Historical Commission to be eligible for listing on the National Register of Historic Places. This provision shall apply to all new construction, repair, change, alteration or extension of a single-family dwelling or an accessory structure, septic system or water well relative thereto.

(c) Jurisdictional Determinations

(i) Any Municipal Agency or Applicant for a development permit, whose application has not been referred to the Commission by a Municipal Agency or taken up by the Commission for review under Section 12(h) of the Act, may apply to the Commission for a Jurisdictional Determination as to whether a development is or is not a DRI under the Act, and/or as to whether the development is exempt from Commission review under Section 22 of the Act.

(d) Projects Subject to Regulation under MEPA

(i) Any proposed development for which an Environmental Impact Report (EIR) is required to be prepared under the provisions of MEPA shall be deemed a DRI. The Applicant shall file a DRI application for the proposed development to the Commission for review as a DRI. DRI Applicants who are also subject to regulation under MEPA may seek a Joint Review Process under MEPA and the Act pursuant to a November 25, 1991 Memorandum of Understanding between the two agencies.

(ii) An Applicant who is required to file an Environmental Notification Form (ENF) under MEPA shall, at the same time, file a copy of the ENF with the Clerk. If the Secretary does not require the preparation of an EIR, the Commission may review the proposed development as a DRI if, at a meeting, the Commission determines that the proposed development presents one or more of the concerns listed in Section 12(b) of the Act and is not otherwise exempt by the provisions of Section 22. Projects subject to regulation under MEPA may undergo a Joint Review Process under MEPA and the Act pursuant to a November 25, 1991 Memorandum of Understanding between the two agencies.

SECTION 3: Developments Presumed to be Developments of Regional Impact (DRI Review Thresholds)

Upon the effective date of this ordinance, the following standards and criteria ("thresholds") shall set forth the types and classes of development presumed to be Developments of Regional Impact (DRIs). Standards and criteria contained in Section 12(c) of the Act are superseded by the thresholds contained in these regulations upon the effective date of the ordinance. Any proposed development that meets or exceeds the thresholds adopted below shall be referred to the Commission as a DRI:
(a) Any proposed Demolition or Substantial Alteration of a building, structure or site listed on the National Register of Historic Places or the State Register of Historic Places, outside a municipal historic district or outside the Old King’s Highway Regional Historic District.

(b) The construction or expansion of any bridge, ramp, road or vehicular way that crosses or provides direct access to an inland pond, barrier beach, coastal bank, dune, beach or tidal wetland or waterbody (as defined by MGL Ch. 131, Section 40) except a bridge, ramp or driveway serving no more than three single-family dwelling(s).

(c) Any development that proposes to divide parcel(s) of land totaling 30 acres or more in common ownership or control on or after September 30, 1994, including assembly and recombination of lots. This threshold shall include any development activity in conjunction with any land division of 30 acres or more not otherwise exempted from review under Section 22(e) of the Act.

(d) Any development that proposes to divide land into 30 or more residential lots. Any development that proposes to divide land into 10 or more business, office or industrial lots.

(e) Any of the following proposed commercial, service, retail or wholesale business, office or industrial development, as well as any private health, recreational or educational development which exceeds these criteria:

   (i) new construction of any building or buildings (including accessory and auxiliary structures) with a Gross Floor Area greater than 10,000 square feet;

   (ii) Additions to existing buildings that result in an increase greater than 10,000 square feet of Gross Floor Area;

   (iii) For Outdoor Uses, new construction or development that has a Total Project Area greater than 40,000 square feet;

   (iv) Any Demolition and replacement that results in a net increase in Gross Floor Area greater than 10,000 square feet. Net increase is calculated as the difference between the existing Gross Floor Area and the proposed Gross Floor Area.

(f) Any proposed Change of Use, or Demolition and replacement resulting in a Change of Use, involving commercial, service, retail, wholesale, office, industrial, private health, private recreational or private educational uses in excess of the following thresholds:

   (i) Where the Gross Floor Area of the building(s), or that portion of a building subject to the Change of Use, is greater than 10,000 square feet. In cases where there is a Change of Use within a portion of a building only, all areas associated with that use shall be included in the 10,000 square foot calculation, including storage areas and ancillary areas;

   (ii) For Outdoor Uses, where the Total Project Area is greater than 40,000 square feet.

(g) Any proposed development, including the expansion of existing developments, that is planned to create or add 30 or more Residential Dwelling Units.

(h) Any development providing facilities for transportation to or from Barnstable County, including but not limited to ferry, bus, rail, trucking terminals, transfer stations, air transportation and/or auxiliary uses and accessory parking or storage facilities, so long as such auxiliary and/or accessory uses are greater than 10,000 square feet of Gross Floor Area or 40,000 square feet of outdoor area. For the purposes of this threshold the amount of outdoor area shall be calculated as
set forth in the definition of Total Project Area.

(i) (1) Construction of any Wireless Communication Tower exceeding 35 feet in overall height, including appurtenances, from the natural grade of the site on which it is located, except for a new Concealed Antenna Monopole less than or equal to 80 feet in overall height from the natural grade of the site on which it is located that is designed to accommodate at least two carriers and with an Occupied Area limited to no more than 1300 square feet.

(2) Reconstruction of, attachment to or replacement of any existing Wireless Communications Tower, power transmission structure or utility pole for the purpose of supporting antenna(s) for transmitting and/or receiving radio frequency communications that increases its overall height above existing grade by more than 20 feet.

(j) Site alterations or site disturbance greater than two acres including but not limited to clear cutting, grading, and clearing land, unless such alteration or disturbance is conducted in conjunction with a building permit for a structure or a DRI approval or in conjunction with a municipal project

(k) Mixed-use residential and non-residential developments with a Gross Floor Area greater than 20,000 square feet, or greater than 10,000 square feet of commercial space. For the purposes of this threshold the Gross Floor Area of Residential Dwelling Unit(s) shall be included in the Gross Floor Area calculation of the total development.

Section 4: Change of Use/Limited DRI Determination

Projects that exceed the thresholds in Section 3(f), as determined by the Chief Regulatory Officer, shall be deemed Developments of Regional Impact (DRI). The Chief Regulatory Officer’s determination shall be made in accordance with Section 4(a) below. For any project determined to be a Change of Use, the proponent may apply to the Commission to limit the scope, or not require, DRI review for the Change of Use. In accordance with Section 4(b) below, the Regulatory Committee will determine the scope of any limited DRI review.

(a) Change of Use Determination

(i) An Applicant or Municipal Agency may consult with the Chief Regulatory Officer to obtain a determination of whether a project constitutes a Change of Use. In making this determination, the Chief Regulatory Officer will evaluate whether the project may have more detrimental impact on the resources protected under the Act than the immediately preceding use.

(ii) If the Chief Regulatory Officer determines that a project does not constitute a Change of Use, the Chief Regulatory Officer shall so state in writing, and the Applicant may proceed through the local permitting process without further review by the Commission.

(iii) If the Chief Regulatory Officer determines that a project constitutes a Change of Use, the Chief Regulatory Officer shall so state in writing, and the Applicant shall submit a DRI application in accordance with Section 6, or may submit an application for a Limited DRI Determination in accordance with Section 4(b) below.

(iv) The Chief Regulatory Officer shall mail a copy of his determination to the Applicant, Municipal Agency and chair of the Regulatory Committee.

(v) If the Applicant or Municipal Agency disagrees with the determination made under Section 4(a)(i) by the Chief Regulatory Officer, the Applicant or Municipal Agency may submit an application for a Jurisdictional Determination in accordance with Section 9.
(b) Application for Limited DRI Determination

(i) An Applicant may submit an application to the Commission for a Limited DRI Determination if the project has been determined to be a Change of Use.

(ii) Applications for a Limited DRI Determination may be made only for a project proposed on a previously developed parcel of land and that does not involve the Demolition or Substantial Alteration of Historic Structures (see Regional Policy Plan for definition of Historic Structure).

(iii) All applications for a Limited DRI Determination shall be submitted in accordance with Section 2 of the Administrative Regulations, as amended. The application for a Limited DRI Determination shall be filed at an application-filing appointment. This appointment shall be scheduled at least two business days in advance with the Chief Regulatory Officer or his/her designee. The required number of copies specified in Section 2 of the Administrative Regulations shall be submitted. Application packages will not be accepted at this appointment unless they contain the application cover sheet and its required filing materials.

(iv) Upon receipt of an application for Limited DRI Determination, the Executive Director or his/her designee will review the application for completeness. In order to be deemed complete, an application shall contain all items listed in the application, unless waived by the Executive Director or his/her designee. If the application is not complete, the Commission shall notify the Applicant with a statement that the application is incomplete and the reasons therefore. If additional data or analysis is necessary to assess the impact of the proposed development, Commission staff may schedule a meeting with the Applicant to discuss the additional information required to facilitate Commission review.

(v) No public hearing shall be scheduled until the application for a Limited DRI Determination is complete.

(vi) The Regulatory Committee or its designee shall, within 45 calendar days of receipt of a complete application, review the information provided by the project proponent at a public hearing. The Commission shall notify and consult with appropriate town officials on the project prior to the public hearing. Within 21 calendar days of the close of the public hearing, the Regulatory Committee or its designee shall determine the scope of the DRI review of the project, which may be limited to those subject areas where impacts are more detrimental (quantitatively and/or qualitatively) than the immediate prior use. In making such determination, the Committee or its designee shall consider the resources protected by the Act and RPP, including but not limited to water resources, coastal resources, wetlands, wildlife/plant habitat, economic development, transportation, waste management, capital facilities, energy, affordable housing, open space, recreation, historic preservation and community character. When determining the scope of DRI review, the Regulatory Committee shall consider whether the project’s impacts involve deviation from the minimum performance standards of the RPP. The Regulatory Committee or its designee shall specify the proposed scope of the DRI review in its determination.

(vii) Following the Regulatory Committee’s determination of the scope of the DRI, the Municipal Agency shall refer the project to the Commission in accordance with Section 2(a), and the Applicant shall make an application for DRI review in accordance with Section 6.

(viii) If the Regulatory Committee or its designee determines that the project does not result in more detrimental impacts than the immediately prior use, the Applicant may proceed
through the local permitting process without further review by the Commission.

SECTION 5: Transitional Exemption from DRI Review

(a) Projects that qualify under the provisions set forth in Section 22 of the Act shall be exempt from DRI review.

(b) For the purpose of determining if the project is exempt under Section 22(b) of the Act, a special permit or variance shall be deemed to be received upon filing with the town clerk. An Order of Conditions shall be deemed to be received upon the date of signature of the Order of Conditions, or if a Superseding Order of Conditions is rendered, then upon the date of signature of the Superseding Order of Conditions. A statement of the Secretary that the Environmental Impact Report adequately complies with MEPA is deemed to be received upon the date of signature of the Secretary's Certificate.

(c) For the purposes of determining if a project is exempt under Section 22(b) of the Act, a development will be deemed to be constructed in substantial compliance with the applicable development permit or approval on a case-by-case basis.

The determination of whether a project substantially complies with an original local permit or approval shall be based upon all of the following factors:

The proposed project is in substantial compliance if:

(i) the proposed project and use reflect the nature and purpose of the project and use in the original local approval; and
(ii) the changes do not result in the requirement for additional local development permit review in the form of a new permit, approval or a modification to the original approval; and
(iii) the changes do not result in different or increased impacts, as compared with the original local approval, to the interests protected by the Act and the Regional Policy Plan.

The burden is on the project proponent to demonstrate that the change is not substantial. In order to resolve any issues regarding the requirement of DRI review, the project proponent may file an application with the Commission for a Jurisdictional Determination, as authorized by section 12(j) of the Act.

The Commission will presume that the project is no longer in substantial compliance with the original permit or approval if the project was the subject of an enforcement order or permit revocation because of non-compliance with the original approval. The applicant may present evidence to the Commission that, notwithstanding the enforcement order, the project is still in substantial compliance with the originally issued permit or approval.

SECTION 6: Developments of Regional impact (DRI)/Discretionary Referrals

(a) Procedure for Referral

(i) Developments of Regional Impact (DRI)

A Municipal Agency referring a proposed development to the Commission for review as a DRI shall submit a DRI referral form to the Clerk. DRI referral forms may be obtained from the Commission during regular business hours.

(ii) A Municipal Agency's review of pending local development permit applications shall be suspended once a DRI referral is made. The suspension of review shall extend all constructive grant periods for Municipal Agencies for a period equal to the duration of
Commission review, such periods to resume running after a final Commission decision is rendered.

(iii) Discretionary Referrals
Upon receipt by the Commission of a Discretionary Referral of a proposed DRI, the Commission may, at a public meeting, accept the referral for review as a development that may have regional impacts and presents one or more of the concerns listed in Section 12(b) of the Act. Pursuant to Section 4(a)(12) of the Act, the Commission may delegate to the Regulatory Committee, to the Executive Director, or to the Commission staff, the responsibility to meet and make a recommendation to the Commission as to whether the Commission should accept a Discretionary Referral of a proposed development. Upon a vote of the Commission to accept a Discretionary Referral for review as a DRI, Municipal Agencies shall suspend their review of pending local development permit applications related to the project that is subject of the Discretionary Referral. The suspension of Municipal Agency review shall extend all constructive grant periods for Municipal Agencies for a period equal to the duration of Commission review, such periods to resume running after a final Commission decision is rendered.

(b) Procedure for Filing DRIs
(i) Upon receiving notice from the Commission of the proposed development's referral as a DRI, or acceptance as a Discretionary Referral, the Applicant shall file an application for DRI review. The DRI application shall be filed at an application-filing appointment. This appointment shall be scheduled at least two business days in advance with the Chief Regulatory Officer or his/her designee. The required number of copies of the application are as specified in Section 2 of the Administrative Regulations. Application packages submitted will not be accepted at this appointment unless they contain the application cover sheet and its required filing materials. A pre-application meeting between the Applicant and Commission staff is strongly encouraged prior to filing development plans at the local level to discuss the application requirements and the DRI review process. Applicants should bring any conceptual plans, studies or information on the property and/or development proposal to this meeting.

(ii) Simultaneously with the filing of the number of copies specified in Section 2 of the Administrative Regulations with the Commission, the Applicant shall file a copy of such application and all subsequent submittals with the town clerk, building inspector, DRI Liaison, planning board, and any other Municipal Agency(ies) before which the Applicant will appear.

(c) Procedure for Processing DRIs
(i) Notification
Upon receipt by the Commission of a mandatory referral of a proposed DRI, or upon a vote to review a project that should have been referred to the Commission for DRI review, or upon acceptance by the Commission of a Discretionary Referral from a Municipal Agency or under MEPA, the Commission shall notify, by certified mail, the Applicant, the town clerk and the building inspector of the Municipality(ies) in which the proposed development is located, and the Municipal Agency(ies) before which a development permit is pending, of the Commission’s intent to review the proposed development as a DRI. Such notification will be mailed within 14 calendar days and will include the date on which the Commission received the referral and a copy of the DRI referral form, or the date on which the Commission voted to review the project.
(ii) Contents of Application
All applications for DRIs shall be submitted in accordance with Section 2 of the Administrative Regulations, as amended. Any Applicant for a DRI shall file a true copy of the deed(s) or other instrument(s) of record showing ownership of the property that is the subject of the application. If the Applicant is not the owner, the owner of record of the property must endorse and acknowledge the application in writing.

(iii) Completeness Review
[1] Upon receipt at the application-filing appointment of a DRI application, meeting the requirements of Section 6(b) above, the Executive Director or his/her designee, will review the DRI application for completeness. In order to be complete, a DRI application shall contain all items listed in the DRI application, unless waived by the Executive Director or his/her designee. If additional data or analysis is necessary to assess the impact of the proposed development, Commission staff may schedule a meeting with the Applicant to discuss the additional information required to facilitate Commission review.

[2] A Substantive Public Hearing shall not be scheduled until a DRI application is complete.

[3] Once a DRI application is complete, a Substantive Public Hearing will be scheduled and Commission staff shall review the application for its consistency with the Act, Regional Policy Plan (RPP), Districts of Critical Planning Concern regulations, municipal development bylaws, and certified Local Comprehensive Plans and prepare a staff report. The RPP and associated technical bulletins applicable to the Commission review of the proposed development shall be those in effect at the date of the first Substantive Public Hearing.

(iv) Discussions with Local Officials
While the Commission is reviewing a DRI, the Municipal Agency before which the Applicant has development permits pending may conduct informal discussions, in compliance with the provisions of the Massachusetts Open Meeting Law, MGL. Chapter 39, Section 23A-23G. Applicants shall promptly furnish the Municipal Agency with copies of all information submitted to the Commission during Commission review.

(v) Timeframes
[1] The Commission shall hold a public hearing within the following timeframes:
   (a) within 60 calendar days of receipt of a mandatory referral, or;
   (b) in the case of a Discretionary Referral, within 60 calendar days of a vote by the Commission to accept a development for review as a DRI; or
   (c) in the case of a vote of the Commission to review the project pursuant to Section 12(h) of the Act, within 60 calendar days of a vote by the Commission to review a development as a DRI.

If a DRI application is incomplete, a Hearing Officer may open the public hearing for procedural purposes only. No testimony shall be received at this hearing. At least one public hearing shall be held in one of the municipalities in which the proposed DRI is located, in accordance with Section 5(g) of the Act. The public hearing regarding review of a DRI shall be closed within 90 calendar days following its opening date, pursuant to Section 13(a) of the Act. Failure to submit a complete DRI application in a timely manner may result in a procedural denial, pursuant to Section 13. All public hearings will be noticed in accordance with Section 11(a).
[2] Applicants shall provide requested information in a timely manner. A timely manner means that information must be submitted to the Commission at least 14 calendar days in advance of a meeting or hearing. The Commission or its designee may postpone consideration of information submitted less than 14 calendar days prior to a scheduled meeting or hearing. In addition, failure to provide information in a timely manner may result in cancellation of a meeting or hearing and may result in a procedural denial, pursuant to Section 13.

(vi) Timeframes for Developments Subject to Review by MEPA
Notwithstanding Section 6(v) above, the following additional timeframes apply to certain projects being reviewed by MEPA.

[1] If the Secretary requires the preparation of an Environmental Impact Report (EIR), the project is deemed to be a DRI under Section 2(d)(i). The Commission shall hold a public hearing to review the project within 45 days of the Secretary’s certification of the adequacy of the final EIR; or

[2] If the Secretary does not require the preparation of an EIR, and the Commission has determined that the project should be subject to DRI review (in accordance to Section 2(d)(ii)), the Commission shall hold a public hearing within 90 days of the Secretary’s certification that no EIR is required.

The public hearing regarding review of a DRI that was accepted for review or required to be reviewed pursuant to MEPA filings shall be closed within 90 days following its opening date, unless extended by mutual agreement with the Applicant.

(vii) Hearing Notice
The Commission shall provide notice of public hearings to consider a DRI as required by Sections 5(a) and 5(d) of the Act and in accordance with Section 11(a) of these regulations.

(viii) Findings for Approval
The Commission shall review proposed DRIs for their consistency with the Act, the RPP, Districts of Critical Planning Concern (DCPC), municipal development bylaws and Local Comprehensive Plans. The Commission shall approve, or approve with conditions, a DRI and shall permit a Municipal Agency to grant a development permit for a proposed DRI if the Commission finds after a public hearing that:

[1] the probable benefit from the proposed development is greater than the probable detriment;

[2] the proposed development is consistent with the RPP and the Local Comprehensive Plan of the Municipality(ies) in which the proposed development is located. All DRIs shall be subject to all Minimum Performance Standards in the RPP with the following exceptions, which shall be construed narrowly:

(a) Discretionary Referrals - If the Commission accepts a limited Discretionary Referral for DRI review as provided in Section 2(b)(i) above, the Commission shall waive application of Minimum Performance Standards outside of the scope of the subject matter of the local referral;

(b) Projects involving historic properties referred under Section 3(a) above - The Commission shall waive application of Minimum Performance Standards other than those of the Heritage Preservation/Community
Character Section of the RPP, so long as the development proposal does not meet or exceed a threshold contained in Section 3(b-k) above;

(c) Hardship Exemptions approved in accordance with Section 8, including Projects of Community Benefit - The Commission may waive or modify application of one or more of the Minimum Performance Standards where such relief shall be the minimum necessary to address the hardship. Any relief granted shall not nullify or substantially derogate from the intent and purposes of the Act, and shall not result in a substantial detriment to the public good;

(d) Wireless Communication Towers under Section 3(i) above - The Commission may waive application of Minimum Performance Standards of the RPP, provided that the Commission finds that such standards are outside the scope of the proposed project.

(e) Change of Use Applications - The Commission may limit review to certain issue areas of the RPP for Change of Use projects subject to a limited DRI review, as described in Section 4 of these regulations.

[3] the proposed development is consistent with municipal development bylaws, or, if it is inconsistent, the inconsistency is necessary to enable a substantial segment of the population to secure adequate opportunities for housing, conservation, environmental protection, education, recreation or balanced economic growth;

[4] if the proposed development is located in whole or in part within a designated DCPC, it is consistent with the regulations approved or adopted by the Commission pursuant to Section 11 of the Act.

The Commission may also disapprove a proposed development that does not meet all of the criteria set forth above.

(ix) Conditions
[1] The Commission may set conditions for proposed developments as it deems appropriate, pursuant to Section 13(g) of the Act. Exactions for off-site improvements shall have a rational nexus to an impact attributable to the proposed development, must reasonably benefit the proposed development, and shall be proportionate to the impact created by the proposed development.

[2] Conditions attached to a DRI approval of a proposed development shall be in conformance with regulations and policies of the applicable local historic district and/or the Old King’s Highway Regional Historic District.

(x) Decisions
Within 60 calendar days of the close of the hearing period, the Commission shall render a written decision on the proposed development. Such 60-day limit may be extended by mutual agreement of the Commission and the Applicant.

Pursuant to Section 13(c) of the Act, the chairman of the Commission may delegate to the Regulatory Committee or other subcommittee the responsibility to review the proposed DRI, assemble the record, and make a recommendation to the Commission.

The Clerk shall file and record decisions in accordance with Section 11(b) of the Enabling
(xi) Failure to Pay Fee
Failure of an Applicant to pay the filing fee specified in Section 14, Schedule of Fees, will result in a determination that the DRI application is incomplete. No Substantive Public Hearing will be held to consider such incomplete application, pursuant to Section 6(c)(iii). Pursuant to Section 13, a procedural denial of the proposed development may result if such fee is not paid by the close of the 90-day public hearing period.

(xii) Withdrawals
[1] An Applicant may withdraw an application for DRI review from consideration by the Commission at any time prior to a Commission vote as long as such withdrawal is in a form approved by the Commission and as long as the Applicant provides documentation that the project has also been withdrawn from consideration at the local level. Failure to withdraw in a manner approved by the Commission may result in a procedural denial of the DRI application, pursuant to Section 13.

[2] In the case of a Discretionary Referral, a request for withdrawal by a referring agency should be granted only if either: (a) the project applicant has decided not to proceed with the project, thereby obviating the anticipated regional impacts that justified Commission review; or, (b) the project applicant is legally bound to alter the project in a manner that would substantially mitigate its anticipated regional impacts, thereby rendering any further review of the project redundant and unnecessary.

(xiii) Certificates of Compliance
Prior to issuance of a Certificate of Use and Occupancy by a Municipal Agency, and 30 days prior to completion of the construction of the project, the Applicant shall file a written request with the Commission for a final Certificate of Compliance. The Commission may enter and inspect the property that is the subject of a DRI approval at reasonable times and with reasonable notice to determine compliance with said DRI approval. Within 30 days of such inspection, the Commission shall issue a final Certificate of Compliance if the project is built in accordance with the DRI approval and all conditions have been met. The Municipal Agency shall not issue a Certificate of Use and Occupancy until the Commission issues its final Certificate of Compliance. If no Certificate of Use and Occupancy is required under local regulations, the Applicant shall not use and/or occupy the project until the Commission issues its final Certificate of Compliance. The Commission may also from time to time issue other Certificates at key stages of the development. All outstanding fees due the Commission shall be paid prior to issuance of a Certificate of Compliance.

(xiv) Extension of DRI Permit
Within six months prior to the expiration of the seven-year timeframe on an approved DRI, an Applicant, or his/her successors or assigns, may apply for an extension of the DRI timeframe for up to an additional five years. An extension of the DRI timeframe may only be requested if a project has received DRI approval but has not received local development permits, and/or if a portion of the proposed project has not been completed as defined by Section 2(e) of the Act.

The Regulatory Committee shall review information provided by the Applicant and Commission staff, and within 60 days of receipt of a completed application, advertise and hold a substantive public hearing pursuant to Section 5 of the Act to consider an extension request. When appropriate, Commission staff shall notify and consult with federal, state and local officials on the extension request prior to the public hearing. An extension of the
DRI timeframe shall be reviewed for its consistency with Section 13(d) of the Act including consistency with the RPP in effect at the time of the opening of the public hearing on the extension request. In reviewing the extension request, the Regulatory Committee shall determine which of the following applies:

[1] The extension will result in a minor change or no changes to the original findings or conditions on the project. In such cases, the extension may be granted. The extension shall take effect on the date the extension is granted for a period not to exceed five years. Where applicable, the DRI decision shall be modified to reflect any increase in a payment of funds to account for inflation over the original decision period plus the duration of the extension. No local development permits may be issued after the original date of expiration of the DRI approval unless and until such extension is granted.

[2] The extension will result in a major change(s) to the original findings or conditions of the original approval. In such cases, the extension shall not be granted and the Applicant shall be required to seek a new DRI approval.

Within 30 days of the closing of such public hearing, the Regulatory Committee shall determine if the extension may or may not be granted. If the extension is granted, the Regulatory Committee shall specify the duration of the extension in its decision. At its discretion, the Regulatory Committee may refer the request to the full Commission.

Section 7: Developments of Regional Impact (DRI) Exemptions

Any Applicant may apply to the Commission for an Exemption from Commission review of a proposed project that literally qualifies as a DRI, but where the location, character and environmental effects of the development will prevent its having any significant impacts on the resources, values and purposes protected by the Act outside of the in which the development is to be located. The burden shall be on the Applicant to show that the project is exempt.

(a) Procedure for Filing Exemptions

(i) An Applicant seeking a DRI Exemption must file a completed application, in accordance with Section 2 of the Administrative Regulations. Any Applicant for a DRI Exemption shall file a true copy of the deed(s) or other instrument(s) of record showing ownership of the property that is the subject of the application. If the Applicant is not the owner, the owner of record of the property must endorse and acknowledge the application in writing.

(ii) An Applicant requesting a DRI Exemption may consult with the staff of the Commission prior to filing an application, for the purpose of determining the requirements of a fully completed application.

(iii) An Applicant requesting a DRI Exemption shall file an application at an application-filing appointment. This appointment shall be scheduled at least two business days in advance with the Chief Regulatory Officer of the Commission, or his/her designee. Application packages submitted will not be accepted at this appointment unless they contain the application cover sheet and its required filing materials. A pre-application meeting between the Applicant and Commission staff is strongly encouraged prior to filing of development plans at the local level to discuss the application requirements and the DRI Exemption review process. Applicants should bring any conceptual plans, studies or information on the property and/or development proposal to this meeting.
(b) Procedure for Processing Exemptions

(i) Completeness

[1] Upon receipt of an application for DRI Exemption, the Executive Director or his/her designee shall determine whether the application is complete within 14 calendar days of receipt of the application by the Clerk.

[2] If the Executive Director or his/her designee determines that the application for DRI Exemption is not complete, the Commission shall so notify the Applicant with a statement indicating that the application is not a complete application and the reasons therefore. A Substantive Public Hearing shall not be scheduled until the application is deemed complete...

[3] If the Executive Director or his/her designee determines that the application for DRI Exemption is complete, the Commission shall schedule a Substantive Public Hearing and notify the Applicant or his/her representative, the town clerk and the building inspector of the Municipality(ies) in which the development is located, the DRI Liaison, the Municipal Agency(ies) before which any development permits are pending, and the property owner listed on the relevant application(s), that the Commission has accepted such application. Such notification shall include the date on which the Commission determined the application was complete.

(ii) Timeframes

[1] As required by Section 12(k) of the Act, the Commission shall hold and complete a public hearing to consider a complete application for DRI Exemption within 45 days after the date on which the application was deemed complete. The Regulatory Committee or other subcommittee is authorized to review the proposed development, conduct public hearings, assemble the record, and make a recommendation to the Commission. The Regional Policy Plan (RPP) and associated technical bulletins applicable to the Commission review of the proposed development shall be those in effect on the date of the first Substantive Public Hearing.

(iii) Notice
The Commission shall provide notice of public hearings to consider a completed application for a DRI Exemption in accordance with Section 11(a).

(iv) Decisions
The Commission shall issue a written finding as to significant impacts of the proposed development within 21 calendar days of the close of the public hearing and shall issue a decision as to whether the DRI Exemption is granted. The Clerk shall file and record decisions in accordance with Section 11(b).

(v) Expiration
Any DRI Exemption granted by the Commission shall expire 3 years from the date of its issuance and its scope shall be strictly construed.

(vi) Failure to Pay Fee
Failure of an Applicant to pay the entire filing fee specified in Section 14, Schedule of Fees, will result in a determination that the DRI Exemption application submittal is incomplete. No Substantive Public Hearing will be held to consider an incomplete application pursuant to Section 7(b)(i).
(vii) Withdrawal of Application
An Applicant may withdraw an application for a DRI Exemption from consideration by the Commission at any time prior to a Commission vote as long as such withdrawal is in writing and is approved by the Commission with respect to form and content. Failure to withdraw in a manner approved by the Commission may result in a procedural denial of the Exemption application, pursuant to Section 13.

(viii) Certificates of Compliance
Prior to issuance of a Certificate of Use and Occupancy by the Municipal Agency, and 30 days prior to completion of the work exempted under this section, the Applicant shall file a written request with the Commission for a final Certificate of Compliance. The Commission may enter and inspect the property that has been granted a DRI Exemption at reasonable times and with reasonable notice to determine consistency with said DRI Exemption. Within 30 days of such inspection, the Commission shall issue a final Certificate of Compliance if the project is built in accordance with the DRI Exemption. The Municipal Agency shall not issue a Certificate of Use and Occupancy until the Commission issues its final Certificate of Compliance. If no Certificate of Use and Occupancy is required under local regulations, the Applicant shall not use and/or occupy the project until the Commission issues its final Certificate of Compliance. The Commission may also from time to time issue other certificates at key stages of the development. All outstanding fees due the Commission shall be paid prior to issuance of a Certificate of Compliance.

Section 8: Developments of Regional Impact (DRI) Hardship Exemptions

Any Applicant may apply to the Commission for a DRI Hardship Exemption from Commission review of a proposed project, including a Project of Community Benefit. In accordance with Section 23 of the Act, the Commission may grant an Exemption, in whole or in part and with appropriate conditions, where it specifically finds that:

(i) a literal enforcement of the provisions of the Act would involve substantial hardship, financial or otherwise; and
(ii) desirable relief may be granted without substantial detriment to the public good and without nullifying or substantially derogating from the intent or purpose of the Act.

Projects should comply to the maximum extent feasible with the Minimum Performance Standards of the Regional Policy Plan (RPP). Any relief granted from the requirements of the Minimum Performance Standards shall relate directly to the nature of the identified hardship and shall be the minimum relief necessary to address the hardship. The burden shall be on the Applicant to show that a hardship exists.

(a) Procedure for Filing Hardship Exemptions
(i) An Applicant seeking a DRI Hardship Exemption must file a completed application, in accordance with Section 2 of the Administrative Regulations. Any Applicant for a DRI Hardship Exemption shall file a true copy of the deed(s) or other instrument(s) of record showing ownership of the property that is the subject of the application. If the Applicant is not the owner, the owner of record of the property must endorse and acknowledge the application in writing.

(ii) An Applicant requesting a DRI Hardship Exemption shall file an application at an application-filing appointment. This appointment shall be scheduled at least two business days in advance with the Chief Regulatory Officer or his/her designee. Application packages submitted will not be accepted at this appointment unless they contain the application cover sheet and its required filing materials. A pre-application meeting between
the Applicant and Commission staff is strongly encouraged prior to filing of development plans at the local level to discuss the application requirements and the DRI Hardship Exemption review process. Applicants should bring any conceptual plans, studies or information on the property and/or development proposal to this meeting.

(b) Procedure for Processing Hardship Exemptions

(i) Completeness

[1] Upon receipt of an application for Hardship Exemption, the Executive Director or his/her designee shall determine whether the application is complete within 14 calendar days of receipt of the application by the Clerk.

[2] If the Executive Director or his/her designee determines that the application for Hardship Exemption is not complete, the Commission shall so notify the Applicant with a statement indicating that the application is not a complete application and the reasons therefore. A Substantive Public Hearing(s) shall not be scheduled until the application is complete.

[3] If the Executive Director or his/her designee determines that the application for Hardship Exemption is complete, the Commission shall schedule a public hearing and notify the Applicant or his/her representative, the town clerk and the building inspector of the Municipality(ies) in which the development is located, the DRI Liaison, the Municipal Agency(ies) before which any development permits are pending, and the property owner listed on the relevant application(s), that the Commission has accepted such application. Such notification shall include the date on which the Commission determined the application was complete.

[4] Commission staff will identify the key areas of concern raised by the project and may suggest additional studies to be performed by the Applicant (e.g., traffic, nutrient loading, etc.) identifying impacts and required mitigation associated with the project. Commission staff will attempt to limit the scope of additional studies to those key areas of concern. Should the Applicant disagree with the staff’s recommendation, he or she may request a meeting with the staff and the project subcommittee or Hearing Officer to discuss submission requirements. The determination of the subcommittee or Hearing Officer shall be final.

[5] Applicants shall provide requested information in a timely manner. A timely manner means that information must be submitted to the Commission at least 14 calendar days in advance of a meeting or hearing. The Commission or its designee may postpone consideration of information submitted less than 14 calendar days prior to a scheduled meeting or hearing. Failure to submit the required information in a timely manner may result in procedural denial of the project, pursuant to Section 13.

(ii) Timeframes

The Commission shall hold and complete a public hearing to consider a complete application for Hardship Exemption. The Commission may delegate to the Regulatory Committee or other subcommittee the responsibility to review the proposed development, conduct public hearings, assemble the record and make a recommendation to the Commission. The RPP and associated technical bulletins applicable to the Commission review of the proposed development shall be those in effect at the date of the first Substantive Public Hearing.
(iii) Notice
The Commission shall give notice of a public hearing to consider a complete application for Hardship Exemption in accordance with Section 11(a).

(iv) Findings and Decisions

[1] – The Commission may waive or modify application of one or more of the Minimum Performance Standards for Hardship Exemptions, including Projects of Community Benefit, where:
   (a) such relief granted shall be related directly to the nature of the identified hardship and shall be the minimum relief necessary to address the hardship; and
   (b) any relief granted shall not nullify or substantially derogate from the intent and purposes of the Act; and
   (c) any relief granted shall not result in a substantial detriment to the public good.

In determining whether a project may result in substantial detriment to the public good or whether it may nullify or substantially derogate from the intent of the Act, the Commission shall consider the extent of a project’s compliance with the Act, RPP, municipal development bylaws, Local Comprehensive Plan, and, if applicable, compliance with the purposes of a District of Critical Planning Concern (DCPC) as contained in DCPC nomination and/or designation documents.

[2] Project of Community Benefit Hardship Exemption - The Commission may consider whether the proposed project is a Project of Community Benefit (POCB) as defined under Section 1(c) hereof, and accordingly grant a Hardship Exemption. In order for a POCB to be granted relief under a Hardship Exemption, the Applicant must demonstrate the project’s need within and benefit to the community and specifically the difficulty full compliance with Minimum Performance Standards would entail.

The Commission may grant a Hardship Exemption to a proposed POCB. In determining the extent of relief, if any, to be granted, the Commission shall consider

   (a) whether the proposed project is a POCB as defined under Section 1(c) hereof;
   (b) the extent to which full compliance with the Minimum Performance Standards would constitute a hardship by diminishing the community benefit(s) to be conferred;
   (c) the minimum extent of relief needed to address the hardship; and
   (d) whether any relief granted would nullify or substantially derogate from the intent and purposes of the Act or result in a substantial detriment to the public good.

[3] If at any point the use of the property is changed or expanded, the applicant or subsequent owner or operator shall file a modification request with the Commission in accordance with Section 12. Any relief granted as part of the original Hardship Exemption may be modified within the Commission’s discretion as part of such modification request to require additional or full compliance with the Minimum Performance Standards if the Commission finds that the basis for the original Hardship Exemption has changed.
(v) Decisions
The Commission shall issue a written finding within 60 calendar days of the close of the public hearing and shall issue a decision as to whether the Hardship Exemption is granted, provided, however, that said 60-day period may be extended by mutual agreement of the Applicant and the Commission.

The Clerk shall file and record decisions in accordance with Section 11(b) of the Enabling Regulations.

(vi) Expiration
Any Hardship Exemption granted by the Commission shall be valid and effective for seven years from its date of issuance, unless a shorter time period is specified in the decision, and its scope shall be strictly construed.

(vii) Transferability
The Commission may limit the transferability of any Hardship Exemption granted by the Commission as a condition of approval.

(viii) Failure to Pay Fee
Failure of an Applicant to pay the entire filing fee specified in Section 14, Schedule of Fees, will result in a determination that the Hardship Exemption application submittal is incomplete. No Substantive Public Hearing will be held to consider an incomplete application, pursuant to Section 8(b)(i). Pursuant to Section 13, a procedural denial of the proposed development may result if such fee is not paid by the close of the 90-day public hearing period.

(ix) Withdrawals
An Applicant may withdraw an application for a Hardship Exemption from consideration by the Commission at any time prior to a Commission vote as long as such withdrawal is in writing and is approved by the Commission with respect to form and content. Failure to withdraw in a manner approved by the Commission will result in a procedural denial of the Exemption application.

(x) Certificates of Compliance
Prior to issuance of a Certificate of Use and Occupancy by the Municipal Agency, and 30 days prior to completion of the work exempted under this section, the Applicant shall file a written request with the Commission for a final Certificate of Compliance. The Commission may enter and inspect the property that has been granted a DRI Hardship Exemption at reasonable times and with reasonable notice to determine consistency with said DRI Hardship Exemption. Within 30 days of such inspection, the Commission shall issue a final Certificate of Compliance if the project is built in accordance with the DRI Hardship Exemption and all conditions have been met. The Municipal Agency shall not issue a Certificate of Use and Occupancy until the Commission issues its final Certificate of Compliance. If no Certificate of Use and Occupancy is required under local regulations, the Applicant shall not use and/or occupy the project until the Commission issues its final Certificate of Compliance. The Commission may also from time to time issue other certificates at key stages of the development. All outstanding fees due the Commission shall be paid prior to issuance of a Certificate of Compliance.

Section 9: Jurisdictional Determinations
Any Municipal Agency or Applicant for a development permit, whose application has not been referred to the Commission by a Municipal Agency or taken up by the Commission for review under Section 12(h) of the Act, may apply to the Commission for a Jurisdictional Determination as
to whether a development is not a Development of Regional Impact (DRI) under the Act, and as to
whether the development is exempt from Commission review under Section 22 of the Act. The
burden shall be on the Applicant to show that the project is not a DRI.

(a) Procedure for Applying for Jurisdictional Determinations
(i) An Applicant or Municipal Agency requesting a Jurisdictional Determination must file a
complete application, in accordance with Section 2 of the Administrative Regulations.

(ii) An Applicant requesting a Jurisdictional Determination should file a complete
application at an application-filing appointment. This appointment should be scheduled at
least two business days in advance with the Chief Regulatory Officer or his/her designee.
Application packages submitted will not be accepted at this appointment unless they contain
the application cover sheet and its required filing materials. A pre-application meeting
between the Applicant and Commission staff is strongly encouraged prior to filing
development plans at the local level to discuss the application requirements and the
Jurisdictional Determination process. Applicants should bring any conceptual plans,
studies or information on the property and/or development proposal to this meeting.

(b) Procedure for Processing Jurisdictional Determinations
(i) Completeness
[1] Upon receipt of an application for a Jurisdictional Determination, the Executive
Director or his/her designee shall determine whether the application is complete
within 14 calendar days of receipt of the application by the Clerk.

[2] If the Executive Director determines that the application for a Jurisdictional
Determination is not complete, the Commission shall notify the Applicant with a
statement indicating that the application is not a complete application and the
reasons therefore.

[3] If the Executive Director determines that the application for a Jurisdictional
Determination is complete, then the Commission shall accept the application for a
Jurisdictional Determination. The Commission shall notify the person submitting
the application, the town clerk, the Regulatory Liaison and the building inspector of
the Municipality(ies) in which the development is located, the Municipal
Agency(ies) before which any development permits are pending, and the property
owner listed on the relevant application(s), that the Commission has accepted such
application. Such notification shall include the date on which the Commission
determined the application was complete, notice of the date, time, and place of the
public hearing to consider the application, and a statement that copies of the
application are available for public inspection at the Commission's offices during
normal business hours.

(ii) Timeframes
The Commission, or a Commission subcommittee, shall hold a public hearing to consider a
complete application for a Jurisdictional Determination and shall make a determination as to
the applicability of the Act to the proposed development within 21 calendar days after the
date on which the Commission accepted the complete application, as required by Section
12(j) of the Act. The Commission or its designee shall make a written decision following
this determination. The Commission may delegate to the Regulatory Committee or other
subcommittee the responsibility to review the proposed development, conduct hearings,
assemble the record, and make a recommendation to the Commission. The Commission
may also delegate the Regulatory Committee or subcommittee the authority to make a final
determination on a Jurisdictional Determination. When the Commission will not meet in
time to make such delegation, the Chair is authorized to make this delegation and the Commission staff will report such delegation to the Commission at its next meeting.

(iii) Notice
The Commission shall provide notice of a public hearing to consider a complete application for a Jurisdictional Determination in accordance with Section 11(a).

(iv) Decisions
The Clerk shall file and record decisions in accordance with Section 11(b).

(v) Applicability
The issuance of a determination of non-applicability shall be final unless, within 60 days of issuance, the Commission's review of the proposed development as a DRI is initiated under Section 12(c) of the Act. If the Secretary determines that an Environmental Impact Report (EIR) is required, then the determination of non-applicability shall be null and void and the project will be deemed to be a DRI. The Applicant may, upon request to the MEPA Unit, obtain a determination of whether the proposed development will be required to file an Environmental Notification Form (ENF) under MEPA. State agency projects for which an ENF is required may be deemed to be a DRI. State agency projects for which an EIR is required shall be deemed to be a DRI.

(vi) Failure to Pay Fee
Failure of an Applicant to pay the entire filing fee specified in Section 14, Schedule of Fees, will result in a determination that the Jurisdictional Determination application submittal is incomplete. No Substantive Public Hearing will be held to consider such incomplete application, pursuant to Section 9(b)(i).

(vii) Withdrawals
An Applicant may withdraw an application for a Jurisdictional Determination from consideration by the Commission at any time as long as such withdrawal is in writing and is approved by the Commission with respect to form and content. An Applicant who has withdrawn an application from Commission review shall be charged the filing fee listed in the Schedule of Fees in Section 14.

Section 10: Emergency Work

(a) In an emergency situation where immediate action is necessary to protect the health and safety of the public, a Municipality or state agency may make a determination that work on a development is of an emergency nature, and may issue a development permit for work that would otherwise ordinarily require referral to the Commission as a Development of Regional Impact (DRI).

(b) A Municipality or state agency must make a site inspection before issuing a determination that work is of an emergency nature and requires a development permit without DRI approval. The determination must include a description of the work that is allowed on an emergency basis and may not include any work beyond that necessary to abate the emergency.

(c) Work on a development to abate an emergency shall not extend more than 30 days after the occurrence of the emergency unless written approval from the Commission has been obtained by the Municipality, the state agency, or the owner of the development.

(d) Notification of the determination of emergency shall be made by the Municipality or state agency by telephone immediately if it is issued during normal business hours, or otherwise or in the case of holidays on the next working day, to the Executive Director. Notification may also be
made by facsimile machine transmission. A copy of the determination of emergency and of any development permit(s) issued thereunder shall forthwith be delivered to the Commission.

(e) The Commission shall provide for review of emergency determinations in accordance with the following procedures:

(i) Upon receipt of the copy of the determination of emergency or of the development permit(s) issued, the Executive Director shall forthwith notify the Executive Committee.

(ii) Within five business days of notification, the Executive Committee shall convene to review the determination of emergency and the development permits issued thereunder. The Executive Committee shall have the authority to stay the work until the next regularly scheduled meeting of the full Commission.

(iii) At its next regularly scheduled meeting, the Commission shall review the Emergency Work Determination and any development permit(s) issued thereunder. If the Commission orders the work to be stayed, it shall issue its orders in writing.

(f) The Commission may on its own or by the request of any Person, review an Emergency Work Determination and any development permit(s) issued thereunder. This review shall not stay the work unless the Commission, in writing, specifically so orders.

**Section 11: Noticing, Decisions and Appeals**

(a) Noticing

(i) Developments of Regional Impact (DRI)

The Commission shall provide notice of public hearings for DRIs subject to the timeframes listed in Section 6(c)(v) in accordance with Sections 5(a) and 5(d) of the Act as follows:

[1] by publication in a newspaper of general circulation throughout Barnstable County, once in each of two successive weeks, the first publication to be not less than 14 calendar days before the day of the hearing;

[2] the Commission may also publish a courtesy hearing notice in a second newspaper of general circulation in the (ies) in which the DRI is located.

[3] by posting notice in a conspicuous place in the Commission's offices not less than 14 calendar days before the day of the hearing;

[4] by making copies of all documents subject to notice and hearing available for public inspection at the Commission's office during normal business hours;

[5] by mailing notice at least 14 calendar days before the day of the hearing to the Assembly of Delegates, County Commissioners, Board of Selectmen/Town Council, town clerk, building inspector, planning board, board of appeals and conservation commission of each Municipality in which the proposed project or a portion thereof is located, to any other town agency which makes a written request for such notice and to the Governor's committee;

[6] by mailing notice at least 14 calendar days before the day of the hearing to the Applicant and to each abutter to the proposed DRI, based on a list of abutters provided by the Applicant and certified by the tax assessor of the Municipality or Municipalities in which the DRI or a portion thereof is located. Abutters shall
include owners of land directly opposite on any public or private street or way and owners of land located within 300 feet of any boundary of the proposed project; and

[7] by mailing notice at least 14 calendar days before the day of the hearing to any person who makes a written request for notification relating to specific geographic areas of Barnstable County, provided such written request has been received by the Commission at least 20 calendar days but not more than two years before mailing of such notice.

(ii) DRI Exemptions, DRI Hardship Exemptions and Limited DRI Determinations
The Commission shall provide notice of public hearings for DRI Exemptions, DRI Hardship Exemptions and Limited DRI Determinations in accordance with all but Section [2] of the requirements of Section 11(a)(i) above.

(iii) Jurisdictional Determinations
The Commission shall provide notice of public hearings for Jurisdictional Determinations in accordance with all but Sections [2] and [6] of the requirements of Section 11(a)(i) above.

(iv) The Applicant, except a Municipality, shall bear the cost of providing notice of the Commission public hearing according to Section 11(a)(i), (ii) and (iii) above. The fee for publishing notice of a public hearing is specified in the Schedule of Fees as provided in Section 14.

(b) Filing and Recording of Decisions
(i) The Commission shall file its written decisions with the Clerk and by certified mail with the Applicant, the town clerk, and the building inspector of the Municipality(ies) in which the proposed development is proposed, and by mail with the Municipal Agencies and the DRI Liaison of the Municipality(ies) in which the proposed development is located. The written decision that the Commission files may include a copy of the plan of the proposed development that was the subject of a decision of the Commission.

(ii) Notices of such decisions shall be published in a newspaper of general circulation in Barnstable County, including a brief summary of the contents of the decision and a statement that copies of the decision are available for public inspection at the Commission's office during normal business hours. In addition, the Commission shall publish notice of its written decisions in its official publication, The REPORTER, as required by Section 5(i) of the Act.

(iii) The Commission shall issue a decision in a form suitable for recording in the Barnstable County registry of deeds. The decision shall be recorded in the Barnstable County registry of deeds after the appeal period has elapsed and no appeal has been filed or, if such appeal has been filed, after it has been dismissed or denied. The Commission shall retain proof of such recording, including the recording information (either book and page or instrument number, date and time). No development (as the term is defined in the Act) shall begin on a proposed Development until the decision has been recorded. The Applicant shall bear the expense of recording.

(c) Appeals
All appeals of Commission decisions shall be made in accordance with the provisions of Section 17 of the Act.
Section 12: Modifications to Approved Projects

(a) Filing Requirements and Procedure for Filing

(i) An Applicant who has obtained a favorable decision from the Commission, or a successor in interest to a favorable and transferable Commission decision, may apply for a decision modification.

(ii) Applicants shall file a written request with the Commission seeking a meeting with the Regulatory Committee for consideration of a modification request. Such written request shall include the name and Commission file number of the approved project, copies of all local approvals for the project, and any other information, including plans showing the proposed modification, if applicable, which the Applicant deems relevant to the requested modification. The Commission staff will place the modification request on the Regulatory Committee’s schedule as soon as practicable.

(b) Procedure for Processing

(i) Proposals for revisions to approved Developments of Regional Impact (DRI), DRI Exemptions and Hardship Exemptions shall be reviewed by the Commission's Regulatory Committee, at a public meeting, to determine which modification category listed in Section 12(c) is applicable to the proposed modification.

(ii) When making its determination, the Regulatory Committee shall consider the following factors: proposed Changes of Use; changes to the site plan; changes to impacts to resources protected by the Act and/or the Regional Policy Plan (RPP); changes in the number or character of units, floor area or outdoor commercial area; changes to architectural design or building facade; changes to the findings or conditions of the Commission's original decision; and, other factors that the committee deems relevant to the determination.

(iii) Following the Regulatory Committee’s determination, the Commission or Regulatory Committee shall issue a written modification decision.

(c) Modification Categories

Except in the case of Minor Modifications type #1, the Regulatory Committee shall determine which of the following categories apply to each modification request:

(i) Minor Modification #1
Includes revisions that are a result of more restrictive conditions imposed by a local board or technical corrections or changes that the Executive Director or his/her designee determine are de minimus changes to the project. Such Minor Modifications shall be approved by the Executive Director or his/her designee and reported to the Regulatory Committee and do not require further review by the Commission. The Executive Director shall issue a written determination to that effect and send copies to the Applicant, Municipal Agency and the town clerk, building inspector and DRI Liaison of the Municipality(ies) in which the proposed development is located. Upon the approval of a Minor Modification #1, the project proponent may apply for, and Municipal Agencies may issue, local development permits consistent with the approved modification. Minor Modifications #1 shall be governed by the RPP in effect at the time of the original approval.

(ii) Minor Modification #2
Includes a substantially similar proposal to the original project but involves a minor Change
of Use, a minor change to the site plan, or small change to the findings or a condition of the original approval which does not affect the intent or outcome of the finding or condition. A proposed change shall not result in different or increased impacts to the resources protected by the Act and/or the RPP. Such a minor modification may be approved by the Regulatory Committee and does not require further review by the Commission. The Regulatory Committee shall issue a written decision and send copies to the Applicant, Municipal Agency and the town clerk, building inspector and DRI Liaison of the Municipality(ies) in which the proposed development is located. Upon the Regulatory Committee’s approval of a Minor Modification #2, the project proponent may apply for and Municipal Agencies may issue a local development permit consistent with the approved modification. Minor Modifications #2, as determined by the Regulatory Committee, shall be governed by the RPP in effect at the time of their original approval.

(iii) Major Modification
Includes a similar proposal to the original project but involves a major Change of Use or changes to the site plan, findings, or conditions of the original approval, any of which would result in different or increased impacts to the resources protected by the Act and/or the RPP. Major Modifications may be limited to those subject areas where different or increased impacts have been identified. The Regulatory Committee shall specify the scope of the DRI review in its decision.

Major Modifications shall be reviewed by the Commission or its designee. Proposed Major Modification applications shall be submitted to the Clerk and shall proceed through the DRI review or DRI Exemption review process consistent with Sections 12, 13 or 23 of the Act, as applicable, and the Commission’s regulations.

[1] Major Modifications to approved DRIs shall be reviewed by the Commission or its designee for consistency with Section 13(d) of the Act including consistency with the RPP in effect at the time of the opening of the public hearing on the modification request. If the applicant fails to proceed continuously and expeditiously through the DRI review process the Commission reserves the right to review the proposal for compliance with a subsequent RPP.

[2] Major Modifications to approved DRI Exemptions and Hardship Exemptions shall be reviewed by the Commission or its designee for consistency with Sections 12(k) or 23 of the Act and/or other sections of the Act, as applicable. The Commission shall consider the impacts of the original development proposal together with the impacts of the proposed modification, taking into account any mitigation already provided. If the rationale for granting the original Exemption no longer exists, the proposed modification shall be reviewed as a DRI per Sections 12 and 13 of the Act. Such modifications shall be reviewed for consistency with the RPP in effect at the time of the opening of the public hearing on the modification request. If the applicant fails to proceed continuously and expeditiously through the DRI or Exemption review process the Commission reserves the right to review the proposal for compliance with a subsequent RPP.

[3] Major Modifications that involve a Change of Use shall be subject to DRI review following a determination by the Regulatory Committee or its designee that the project would cause more detrimental impacts on any of the resources protected by the Act and RPP than those of the immediate prior use. However, the scope of the DRI review may be limited to those subject areas where impacts are significantly increased. The Regulatory Committee or its designee shall specify the proposed scope of the DRI review in its determination.
(iv) New Project
Includes a substantially different proposal compared to the original project. Such proposals shall not be considered a modification but instead shall be considered a new DRI or Exemption submittal. New Projects shall be reviewed by the Commission or its designee. Proposed New Projects shall be submitted to the Clerk and shall proceed through the DRI review or Exemption review process consistent with Sections 12, 13 or 23 of the Act, as applicable, and the Commission’s regulations. Any project that itself meets or exceeds the standards and criteria for DRI review set forth in Section 3 shall be considered a new DRI. New DRIs shall be reviewed for consistency with the RPP in effect at the time of the opening of the public hearing on the new DRI application. If the applicant fails to proceed continuously and expeditiously through the DRI review process the Commission reserves the right to review the proposal for compliance with a subsequent RPP.

(d) Applicants for projects that are determined to be Minor Modifications under Sections 12(c)(i) and 12(c)(ii) above shall file revised plans with the Clerk for recording at the Barnstable County registry of deeds. The applicant shall be responsible for all filing fees at the registry of deeds.

(e) The approval of a modification under Sections 12(c)(i - iii) shall not extend the seven-year time period of validity of the originally issued DRI or Hardship Exemption approval, nor shall it extend the time period of validity for DRI Exemptions with respect to the issuance of local development permits in reliance on said approval.

Section 13: Procedural Denials

(a) Developments of Regional Impact (DRI), DRI Exemption and DRI Hardship Exemption requests may be procedurally denied, without prejudice, when one or more of the following occur:

(i) the Applicant fails to submit a complete DRI application;

(ii) the Applicant will not sign an extension agreement to extend the Commission's 60-day DRI decision time or other administrative deadline for the purpose of submitting additional information requested by the Commission pursuant to Section 12(g) of the Act;

(iii) the Applicant fails to submit information requested by a Commission subcommittee or Hearing Officer in a timely manner;

(iv) the Applicant is participating in the voluntary Joint Review Process before MEPA and the Commission, and the applicant fails to submit information requested by the Commission or its subcommittee or a Hearing Officer and/or fails to submit information requested by the Secretary in a timely manner;

(v) other instances where the project fails to progress continuously and expeditiously through required regulatory processes and the Commission determines that a procedural denial without prejudice may be properly granted; or

(vi) the Applicant fails to pay the entire filing fee specified in Section 14, Schedule of Fees

(b) For the purposes of applying the standards set forth above, the Commission or its designee shall determine a time frame for submission of information in a timely manner on a case-by-case basis.

(c) The Commission shall notify the Applicant in writing of a pending procedural denial and
provide the Applicant with an opportunity to address a DRI subcommittee or standing committee regarding the status of the project.

Section 14: Schedule of Fees

(a) Pursuant to Section 6(d) of the Act, the Commission shall charge the following fees:

(i) Filing Fees
For all projects, in addition to the fee outlined below, if the Executive Director of the Commission determines that it will require the services of an outside consultant to assist in any aspect of the project evaluation, the project Applicant will deposit with the Commission an amount of money estimated to cover 100% of these services. If this initial estimate is insufficient to adequately review the project proposal, the applicant will provide the additional funds necessary. Any funds not expended at the conclusion of the review will be returned to the Applicant.

[1] Development of Regional Impact Applications:

(a) Residential Developments - $10,000 base fee, plus $300 per lot or unit

(b) Non-Residential Developments - $10,000 base fee plus:

• Divisions of Land: $300 per lot

• Buildings: Fifty (50) cents per square foot above 10,000 square feet of gross floor area as defined in Section 1

• Outdoor Space: Fifty (50) cents per square foot above 10,000 square feet (including but not limited to outdoor display areas, swimming pools, tennis courts, and miniature golf courses)

• Gravel Pits, Mining and Extraction Activities and Golf Courses: $300 per acre

• Wireless Communication Towers: $50 per linear foot of tower/monopole height above ground level

• Water dependent uses including but not limited to docks, piers and revetments - Twenty-five (25) cents per square foot

(c) Mixed Use Projects - $10,000 base fee plus the applicable residential and non-residential per lot/unit/foot fee set forth above.

(d) Historic Properties –
Single Family or Accessory Building - $400
Other - $2,500

(e) Other - For other types of land uses not covered above, $10,000 base fee plus (to be determined as needed, based upon similar uses in the fee schedule above.)

(f) Limited DRI Review – dependent on number of issue areas to be
reviewed (i.e. water, traffic, etc.)
30% of regular DRI review if one issue area
40% of regular DRI review if two issue areas
50% of regular DRI review if three issue areas
100% of regular DRI review if more than three issue areas.

(g) Discretionary Referral – fee based on full or limited review fee as described above.

[2] Limited DRI Determination pursuant to section 4(b) of the Enabling Regulations: $2,500 base fee. If Regulatory Committee determines that a full or limited DRI review is required, appropriate review fee shall apply. This base fee may be applied to the full DRI review fee if a DRI review is initiated within six months of the date of the DRI determination.

[3] Request for Hardship Exemption:
Fifty percent (50%) of the cost of a full DRI review as required by section 14(a)(i)(1)(a-g) above. Should the exemption request be denied, the exemption filing fee may be applied to the full DRI review fee if a DRI review is initiated within six months of the date of the exemption request denial.

[4] Development of Regional Impact Exemption:
Fifty percent (50%) of the cost of a full DRI review as required by section 14(a)(i)(1)(a-g) above. Should the exemption request be denied, the exemption filing fee may be applied to the full DRI review fee if a DRI review is initiated within six months of the date of the exemption request denial.

[5] Development Agreements: Fee shall equal the applicable DRI review fee.

[6] Request for Jurisdictional Determination: $1,000

[7] Modifications to Approved DRIs and Exemptions as categorized under Section 12 above:
• Minor Modifications #1 – No fee
• Minor Modifications #2 – $2,000
• Major Modification #3 – dependent on number of issue areas to be reviewed (i.e. water, traffic, etc.)
  30% of regular DRI review if one issue area
  40% of regular DRI review if two issue areas
  50% of regular DRI review if three issue areas
  100% of regular DRI review if more than three issue areas.

[8] Extensions - $2,000 per request.

(i) Fee for Actual Costs of Publishing and Mailing Notice of Public Hearing

[1] Public Hearing to Consider a Request for a Jurisdictional Determination
[2] Public Hearing to Consider a Request for a Hardship Exemption
[3] Public Hearing to Consider a Request for a Development of Regional Impact
Exemption

[4] Public Hearing to Consider a Development of Regional Impact

[5] Public Hearing to Consider an application for a Limited DRI Determination

[6] Public Hearing to Consider a Development Agreement

(iii) Fee for Actual Costs of Copying - Applicant shall submit appropriate number of copies of written material as described in application form. If not submitted, fee of $0.20 per page of text, $5.00 per oversized copy such as map/plan/etc., or actual cost of reproduction will apply.

(iv) Fee for Actual Costs of Recording Documents at the Barnstable County Registry of Deeds/Registry District of the Land Court.

(v) Fee for Post Decision Monitoring Costs – For projects approved with a requirement for monitoring by Cape Cod Commission staff, a fee based on an estimate of staff time required shall be specified in the final decision.

(vi) Fee for Establishing an Escrow Agreement/Account – 1% of the Escrow Fund with a minimum fee of $250 and a maximum fee of $1,000

(b) Municipalities within Barnstable County and federal agencies, in those instances where such or federal agency is an Applicant for a proposed development shall be exempt from the fees charged by the Commission.

(c) The Executive Committee may, at its discretion, grant an Applicant a partial or complete waiver from any of the fees set forth in this Section. A waiver may be granted where the Applicant demonstrates, in writing, that payment of the review fee set forth in the schedule above will result in a hardship. Such demonstration must be submitted on a Request for Fee Waiver Form, which shall include a narrative describing the hardship and may include any financial or non-financial information relevant to the request.

Adopted on March 2, 2005 by the Assembly of Delegates.

Thomas P. Bernard, Speaker

Approved by the Board of County Commissioners, March 9, 2005 at, 11:15 am.
